A screenshot of the Grundfos SP control software interface. It features a "Factory settings" table and a "Custom settings" table. A red line connects the "Setting (SP)" field in the factory settings table to the "Setting (SP)" field in the custom settings table. Below the tables, there are two photos of pump stations. The first photo has a red box around it with the text $P = 0.7 \times SP$. The second photo has a red box around it with the text $P = 0 \times SP$. A yellow dashed oval highlights the "Setting (SP)" field in the custom settings table and the two photos below it. A small circle with the number "3" is in the top left corner of the screenshot.
